

## IT'S LIKE MAGIC!

THE FUTURE OF COOKING IS HERE.

Imagine cooking directly on your kitchen countertop, no stove needed, just 100% safe invisible burners built into the surface. Invisacook induction cooktops use electromagnetic energy to directly heat pots and pans through your everyday porcelain marble countertop. This is where technology and cooking come together.

## WHY INVISACOOK?

### CLEANER

No cracks and crevices to clean, just a flat surface

### MORE SPACE

Conveniently utilize counter space when burners aren't in use

### SAVE ENERGY

Reduce energy costs by 40% compared to electric or gas

### SAFER = BETTER

Heat is generated directly in the pan—the countertop never gets hot

AND ITS REALLY REALLY COOL!

AVAILABLE IN 2 OR 4-BURNER UNITS

Wi-Fi Compatible &  
Controlled by your smartphone
