

FLOORING

DEMO & PREP SERVICES AVAILABLE

DURABILITY

Large-format porcelain, sintered stone, and ultra-compact surfaces are highly durable, resistant to wear, scratching, staining, and fading, and can withstand heavy foot traffic.

LOW MAINTENANCE

These non-porous surfaces are easy to clean and require no regular sealing or special cleaning products, making them ideal for high-traffic areas and commercial spaces.

DESIGN VERSATILITY

With a wide range of designs, colors, and patterns, these materials mimic natural stone, marble, wood, concrete, and unique textures, allowing designers and homeowners to achieve their desired look.

SEAMLESS APPEARANCE

Large-format slabs (63"x126") offer a visually appealing, continuous surface by reducing grout lines compared to smaller tiles, giving a more expansive and sophisticated appearance.
