

INDOOR & OUTDOOR USE

DEMO & PREP SERVICES AVAILABLE

DURABILITY

Highly resistant to heat, scratching, and impact, large-format porcelain, sintered stone, and ultra-compact surfaces (63"x126") are engineered to withstand heavy use, making them ideal for high-traffic areas indoors and outdoors.

LOW MAINTENANCE

These non-porous surfaces allow easy cleaning with regular soap and water, preventing water absorption and the growth of mold or stains, ensuring a hassle-free maintenance experience and a pristine appearance.

LIGHTWEIGHT

Surprisingly lightweight despite their large size, these materials are easy to handle, transport, and install, exerting minimal stress on building structures, making them suitable for retrofitting projects.

UV & FROST RESISTANCE

Designed to withstand sunlight exposure without fading and freeze-thaw cycles without cracking, these surfaces remain vibrant for extended periods, making them perfect for outdoor applications in various climates.

FIRE RESISTANCE

With high fire resistance, these materials are suitable for areas prioritizing fire safety.

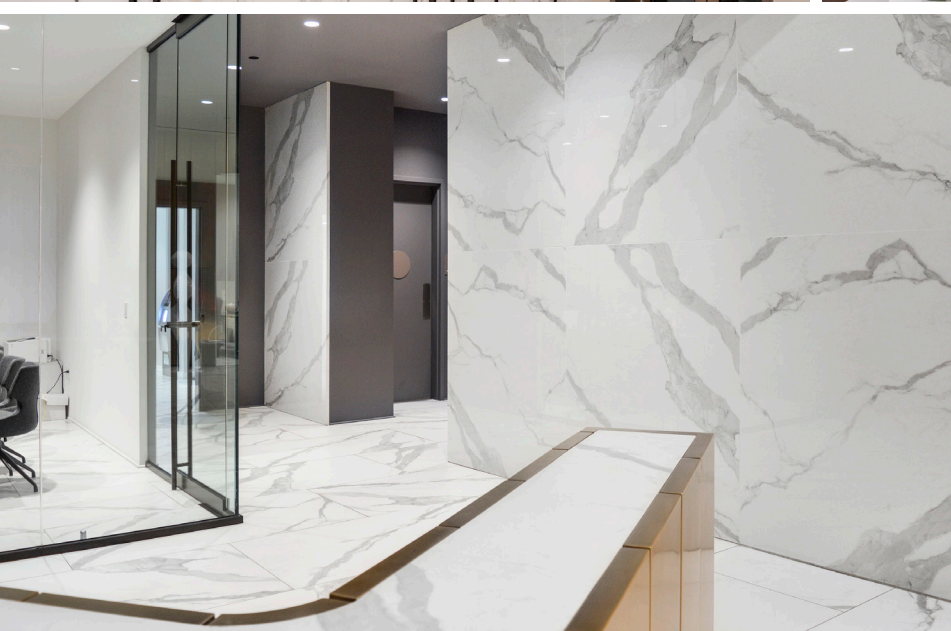

DESIGN VERSATILITY

Offering seamless designs with minimal grout lines and a wide variety of colors and finishes, these surfaces allow designers to achieve their desired aesthetic vision, mimicking the look of natural stone, concrete, wood, or other materials.
